

Transition Pack Yr 6 -7

Primary to Secondary

What is a transition pack?

The purpose of a transition pack is to help a child to provide others with information about his/her needs, interests, understanding, behaviour and communication methods.

It is important that the child plays a central part in the process of creating the pack along with support from parents, teachers, LSA's, speech therapist etc.

The pack is a resource for sharing information to allow others to get to know the needs of individuals and plan in order to allow the child to have access to a curriculum and to adapt and prepare transition to Secondary school.

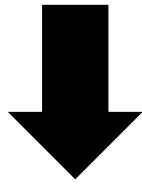

The template from the attached Transition Pack can be used or follow the format and create a pack that is personal and relevant to the child in question. You can select what information needs to be included. Every Transition Pack is going to be different and you are free to change the format, use photographs, symbols etc.

Why use a Transition Pack?

- A Transition Pack can provide a picture of the child's strengths and achievements
- It is an effective means of sharing important information about the child's abilities and needs
- It is a means of ensuring consistency from one location to the new location
- It transfers information in a visible, easy to read way
- It gives parents peace of mind that important information about their child is being transferred
- It provides a positive image of the abilities and needs of the child

What do I need to do before i start my new school?

Go to see the new school

Meet the staff who will be working with me

Meet the children who will be in the same class as me

Take a list of what I need to know about the school so I can get answers

Take photographs to remind me of the various parts of the school

List of things I need to know before starting in my new school

I know where the school is and I can find my way from the bus stop.

I know what to do if I miss the bus.

I know what to do if I lose my money.

I know where the Porth/Gorad/Reception is.

I know where the toilet is.

I know where the canteen is.

I know where to get my lunch and how to pay for it.

I know what to do if I can't find my next lesson.

I know who to speak to if I am worried.

I know what to do if I am uncertain of anything at school.

I've been around the school without losing my way.
