Tîm Robotics Team

Bu grwp o ddisgyblion yn cynrychioli'r ysgol yn Llandudno yn ddiweddar mewn cystadleuaeth 'Technocamps Robotics'. Mae'r disgyblion wedi bod yn gweithio'n galed i ddylunio ac adeiladu robot a allith chwilio a dinistrio 'landmines'. Mae'r robot wedi cael ei ddylunio er mwyn ddefnyddio mewn gwledydd lle mae'r landmines yn achosi anafiadau ac marwolaeth. Mi cafodd y robot yr enw addas iawn o Ter-mine-ator. Yn ystod y dydd cafodd y disgyblion arddangos ei robot yn ogystal a dangos fideo a dangos poster i dîm o feirniaid. Fel syrpreis i'r disgyblion 'roedd na sialens ychwanegol iddynt adeiladu robot o fewn awr ac yna cymeryd rhan mewn 'dance-off' yn erbyn ysgol arall. Roedd y beirniaid yn hapus iawn gyda'r Ter-min-ator yn dangos ei ddoniau ac yn ystyru ei fod yn cael effaith positif ar ddynol ryw, fe benderfynodd y beirniaid rhoi yr ail safle yng Nghystadleuaeth Gogledd Cymru.

A group of pupils represented the school in Llandudno in the Techocamps Robotics Competition. The pupils had been working hard to design and build a robot that searched for and destroyed landmines. The robot has been designed to be used in countries where landmines cause death and injuries to people. The robot was aptly named the Ter-mine-ator. During the day the pupils demonstrated their robot, along with a poster and video to a team of judges. As a surprise to the students, there was a secret challenge set to the group where they were given an hour to rebuild their robot and take part in a dance-off against a robot from another school. The judges were very happy with the Ter-mine-ator robot demonstration, stating the fact that it's effect on humans provided was a very positive appeal, and awarded the group second place in the North Wales competition.
